Э. Пудовочкин — учитель скрипки и художественный руководитель детского скрипичного ансамбля "Светлячок". Разработал специальный метод музыкального воспитания детей с 5 и 6 лет, соединяющий скрипичную технику с развитием слуха, чувства ритма, музыкальной памяти и пониманием эстетических ценности.

Это не типичные скрипичные уроки. Уроки больше похожи на веселые развлечения, когда учитель руководит детьми в музикальных играх, шарках и танцах.

Э. Пудовочкин защитил диплом в Петербургской государственной консерватории и опубликовал многочисленные статьи и методические пособия в России, Германии и США, касающиеся специальной системы музыкального воспитания детей. Он также проживает в Нью-Йорке и по-прежнему с любовью "Светлячок".

(перевод Аси Ардовой)

Эти сборники пьес предназначены для детских скрипичных ансамблей, начиная с первых шагов обучения и движясь к более высокому уровню мастерства. Автор обобщил в них более чем двадцатилетний опыт работы с ансамблями в России и в Соединенных Штатах Америки.

В основе методики Э. В. Пудовочкина лежат для основных принципа: равные формы ансамблевого музицирования и комплексное развитие музыкальных способностей детей через ансамбль. Достижения этой методики скрипачки в победах ансамбля "Светлячок", рукометного Э. В. Пудовочкиным в России, а также в Сан-Франциско (Калифорния, США) и Бельгии.

Данный опыт с успехом используется в настоящее время в ряде городов, в том числе во Владимире, Курске и др. Работа с детьми в Курске с использованием методики Э. В. Пудовочкина сделала возможным усилить интерес юных музыкантов к занятиям скрипичным ансамблевым музицированием, что позволило проводить регулярно фестиваль "Волшебные скрипки", ставший в городе жетонным и настоящим праздником музыки.

Большинство пьес, представленных в сборниках "Ступени 1, 2, 3, 4, 5, 6, 7", а также в сборниках пьес и скрипичных концертов в партитурном исполнении, отредактированы Э. В. Пудовочкиным с учетом уровня музыкального развития юных исполнителей. Репертуар сборников составлен из наиболее популярных произведений, заслуженно пользующихся любовью музыкантов и слушателей многих стран.

Eduard Pudovochkin — Violin teacher and artistic director of a Children's Violin Ensemble "Fireflies", developed a special method of musical training of children 5 and 6 year old, that combines violin technique with ear training, a sense of rhythm, musical memory and aesthetic values.

These are not typical violin lessons. Instead, the lessons are more like a merry game, with teacher leading the children in musical games, marches and dances.

Dr. Pudovochkin completed graduate work at the Leningrad State Conservatory (Russia) and published numerous articles and method books in the former USSR, Germany and USA concerning the special system of musical training of children. He currently resides in New York City, with his beloved Ensemble "Fireflies".

These pieces are intended for children ensembles, beginning with the first steps of studying to the highest level of skill. The author generalized in them more than twenty years experience of practice with ensembles in Russia and in the USA.

Eduard Pudovochkin bases on two main principles in his method: primary forms of ensemble music-making and complex development of children's musical abilities through ensemble playing. This method's achievements are marked during the victorious performances of the "Fireflies" (directed by Eduard Pudovochkin) in San-Francisco (California, USA), in Belgium and, of course, in Russia.

This method is successfully used nowadays in many cities — among them Vladimir, Kursk etc. Practicing with children in Kursk the method by Pudovochkin increased the young musicians' interest to violin ensemble. Due to this special interest regular festivals "Magic Violins" are held in Kursk, being a real holiday for children.

The majority of compositions, introduced in the books "Steps 1, 2, 3, 4, 5, 6, 7" together with the pieces' collections and violin concertos, (written like scores), are edited and arranged by Eduard Pudovochkin, implying the young performers' musical development. This collection is compiled of the most popular and favorite compositions, loved by musicians and listeners all over the world.
